

PLANET APPLE

Planet Apple does not, and never will, sell, trade or rent your personal information to others.

Privacy guaranteed Planet Apple is committed to protecting your privacy. Planet Apple will only use the information you provide lawfully. Planet Apple will not distribute or disclose any information about you to any third parties, except as required to fulfil your order and to notify you of your order status, unless you have provided your consent or if Planet Apple is required or permitted to do so by the law. We will send you updates and product offers unless you request to be excluded.

Security When you place orders, we use secure protocols and servers within Pay pal Pro. As required by the UK Data Protection Acts of 1984 and 1998, we follow strict security procedures in the storage and disclosure of information, which you have given us, to prevent unauthorised access.

Cookies The on-line shopping function of the site uses cookies to speed up the ordering process. These are small text files which are sent to your computer which enable our website to recognise you. They are not computer programmes and are incapable of reading any material on your hard disk or disseminating viruses. You can set up your computer so that it rejects cookies, but in doing so you may be unable to use the shopping facility on the site.

Pay pal Pro This provides the banking facility for Planet Apple to take payments and is a 'back office function' so we never have access to any of your payment data. If you choose to make payment via mail order, our process is to shred any payment information as soon as the transaction has been processed therefore no records are held.

If you have any questions or concerns about privacy these should be addressed to privacy@planetapple.co.uk
